

## Testimonials

Ken handled my first home loan with a breeze. He answered all my numerous questions, always kept me informed, and always reassured me that things were going smoothly. I wouldn't hesitate to recommend him to anyone.

Ken was extremely helpful, fast service. We were very grateful for his advice and service he gave us through our purchase of our investment home. Highly recommend Ken to anyone.

Ken went out of his way to make sure we meet all deadlines! He knows what he is doing and is very professional. Any problems that came our way, he is always there to solve it! Would highly recommend him to everyone! Thanks Ken

Neil and I found Ken very helpful and approachable even though thing changed during the process of the loan approval. When it seemed to be getting too hard Ken would sort it.

This was my second finance that Ken has helped me with, I was very happy with the first one that I couldn't think of anyone else better suited for the second one. Looking forward to working with you again for the third, fourth and so on. Thank you, Ken, for your courtesy, professionalism and promptness in assisting me with my loans :)

We had slight difficulties due to personal circumstances the first time we applied for our loan with Ken's help. He helped us through it and gave us 100% even when it resulted in no loan approval. A few months later our situation changed so of course we contacted him again. He worked so efficiently we got approval within a couple of days. We're very happy and he's now our only broker that we'll use for our future investments and recommend to our friends and family.
