

Karen was fantastic in helping me refinance my home from start to finish. I was kept up to date with exactly where the loan process was at and was given great information on various loan options available and which may best suit my needs.

Thank you again for making this whole process as smooth-sailing as we could hope for. We want to let you know that we were very pleased with the service that you had provided and we'll be confident in recommending your services to anyone. We look forward to engaging your services again, hopefully for another investment property a few years down the road.

Quick, efficient and accurate responses to any requests and throughout the whole process of re-financing. Flexibility in arranging face to face meetings. Gave sound and well supported opinions during discussions without being forceful or pushy for any of the products being reviewed.

Karen provided a good range of options and made time to come and see us, working around our busy schedule.
