

Really impressed with how Jacki rearranged our finances and gave us more flexibility while getting us a better deal than we could. We have already recommended your services to friends and family.

Being self-employed has always made borrowing difficult for us. Jacki helped us every step of the way and her knowledge of lenders made it possible for us to obtain finance. We couldn't be happier.

A friendly can do approach and won't give up until you get the loan you want.

It was taking some time for my wife and I to decide on buying a house, through this process Jacki and Kareen were so supportive and helped us in so many ways. We are now in our new house and loving it. We would certainly recommend their service to any of our friends.

We have been going to Jacki for years and would highly recommend her to anyone. We wouldn't have our lovely house without the hard work Jacki and her team put in to get our loan approved.

My husband and I went to three banks before meeting Jacki, we found the banks quite stressful and also couldn't answer some of our questions we had with borrowing money for a farm. Meeting with Jacki was the best thing we did! We had lots of questions that Jacki could answer and our understanding was so much better! We now have our farm and are very happy. Thank you for all your help Jacki and for making the process so un-stressful!

Being a builder and being involved with property development, Jacki has helped me on many occasions. I have presented her with some tricky situations over the years and have always been extremely pleased with the results.

I have required the services of South Coast Lending personally on multiple occasions. Jacki has exceeded my expectations on every occasion, proving that she is always prepared to go that extra mile for her clients. Jacki's explanation of what is required by lenders and the process that follows was so clear and well explained. As a registered conveyancer - I also work closely with South Coast Lending, their always able to ensure settlements dates are met with little complications. Jacki has proven to be reliable, professional and extremely knowledgeable within the banking and finance industry. I have no hesitation referring clients, family and friends to South Coast Lending, knowing that their honesty and integrity are beyond reproach.
